

## Cash for Containers

The NT Government introduced a cash-for-containers scheme in 2012.

### Eligible containers

The container must have:

- The 10c refund label
- Be purchased in the NT
- Be less than 1L if a flavoured milk and fruit juice container
- Be up to 3L for all other containers

## CDS Depot

There is currently only one collection depot in Alice Springs which can provide 10c refund for CDS containers; The **Envirobank depot**.

## CDS collection Point

If convenience is more important than a refund, you can drop all your 10c containers at the Regional Waste Management Facility.

As this facility is not a registered Collection Depot, **a refund will not be offered**.

Recycling of eligible container is FREE for residents, providing the materials are sorted and free of other waste.

## Glass Wine and Spirit Bottles

Glass wine and spirit bottles are not part of the CDS.

The Alice Springs Town Council offers a 10c refund for these containers every Saturday.

There is a maximum of 100 wine and spirit bottles to receive funds. This service is available for all residents, providing that ID is shown.

The glass collected is crushed and used by Council. Crushed glass is also available for sale.
