

**3. MINUTES OF PREVIOUS MEETING**

**RESOLVED:**

That the minutes of the Development Committee Open meeting held on 4 November 2019 be confirmed as a true and correct record of the meeting proceedings.

**Moved:** Councillor Cocking

**Seconded:** Mayor Ryan

**CARRIED**

**4. BUSINESS ARISING**

**4.1 Update on Action Item 5.3 from Minutes dated 4 November 2019**

Update on the committee's concern over the non-compliant car park for persons using wheelchairs.

Manager Technical Services confirmed that the provision is over and above the requirements of the NT Planning Scheme and that the standards conform to the Central Australia Affordable Housing requirements. As the parking space is within the allotment and provided as an extra, the non-conformity to current standards is irrelevant and it does not impact Council's services.

The Committee noted.

**4.2 Update on Action Item 5.4 from Minutes dated 4 November 2019**

Update on the removal of large trees under the protection of Aboriginal Areas Protection Authority (AAPA).

Manager Technical Services advised that AAPA was contacted and advised that the trees can only be confirmed as sacred if a Request for Information is completed and the fee applicable is paid. The request would be the developer's responsibility.

The Committee noted.

**4.3 Update on Item 4.1 from Minutes dated 4 November 2019**

Director Technical Services advised that Mr Peter Somerville requested a list of questions with regard to the issue on CBD car parking prior to a meeting with Council in order to answer the committee's questions better. Discussion ensued.

**ACTION:**

Director Technical Services to compile a summary of questions in relation to CBD planning and parking to send to Mr Peter Somerville for response

**5. DCA APPLICATIONS – NOVEMBER 2019**

**5.1 Lot 4579, 6 Gap Road – PA2019/0463**

Electrical sub-station addition to hospital with reduction to existing parking provision  
Conditions: Basic Stormwater, Permit to Work within ASTC Road Reserve, Car parking outside of CBD, Other major development conditions

Discussion ensued with regard to concerns over the impacts to a further loss of parking spaces

Council Officers noted on its response to the DCA that patients are forced to park on Council verges and open spaces illegally due to the lack of parking at the hospital

As a result, the impacts to the general public include:

- Line of sight issues leading to unnecessary accidents
- Destruction to Council infrastructure due to vehicle mounting of kerb
- Obstruction to pedestrian traffic due to parked vehicles on verges
- Incurring fines from road authorities
- The additional stress on patients due to being forced to park illegally

The committee noted that there is currently staff car parking at the back of the hospital. It was suggested that the fence be removed and the car park be made available to the public to compensate for the loss of 9 parking spaces as a result of this development.

ACTION:

Council Officers to add in the DCA response letter the provision of utilising the staff car park at the back for public access to compensate for the loss of public parking. The response letter to be sent prior to end of submission date 06/12/2019

ACTION:

Director Technical Services to write a letter of invitation to the hospital board to meet with Council early next year to present its car parking master plan and to provide Council with clarification on how it will address its shortage of carpark long term

Conditions: No conditions required by Alice Springs Town Council

*Councillor Paterson returned to the room at 7:20am*

**5.8 Planning Scheme Amendment – PA2019/0332**

Proposal to amend the NT Planning Scheme to introduce planning policy for the regulation of sex work services

Conditions: No conditions required by Alice Springs Town Council

The Chair advised the committee that the Sex Industry Bill was passed on Thursday, 28/11/2019.

The committee raised concerns regarding the proposed Planning Scheme amendments:

- Lack of clarity to the term, 'that the premises is not located *next to*'
- Requirements on parking
- Effect on ratepayers and change of use issues.

It was noted that no consultation has been made with the Residential Tenancies NT regarding this change.

The Chair confirmed that any application for a change of use will require approval from the DCA and if an application is received, Council and the community will get the opportunity to submit its concerns and/or conditions i.e. parking

Discussion ensued with regard to the process of how the industry will be regulated once this is introduced in relation to residential areas and what Council will base its conditions on in relation to this planning policy moving forward.

ACTION:

Director Technical Services to write a letter to the Minister on the following:

- Consultation and decision making process
- Clarification on the term 'next to' and change of use
- Tax payers and ratepayers concerns as part of the appeals process
- Clarity on the number of support staff working on the establishment

Letter to be sent prior to close of submission date 13/12/2019

ACTION:

Council to request a briefing next year from the Department of the Attorney-General and Justice in relation to this change
