

**POLICY TITLE: COUNCIL OWNED AND/OR CONTROLLED LAND
– LIQUOR LICENCES**

Policy No. 307

POLICY PURPOSE

To have direct input into the approval process for liquor licences on Council owned or controlled land.

POLICY STATEMENT

1. That it be a Policy of the Council that all applications for Liquor Licences under Part III of the Liquor Act and all applications for Special Licences under Part VI of the Liquor Act for activities on Council owned or controlled land, shall require the endorsement of the Council as owner/controller of the venue.
2. That while the Council will not normally oppose or impose any special conditions on Liquor Licence applications, it may do so when it is considered necessary to control undesirable behaviour. While not limiting the nature of the conditions which may be applied, such conditions may include restricting the sale of alcohol to light (less than 3% alcohol content) beer; and wine when served in conjunction with meals;
3. Applications for Liquor Licences will only be endorsed when the applicant is the holder of a lease, sub-lease, licence to occupy or a permit granted by the Council for the activity or event for which the licence is requested;
4. The Council will oppose any application for full licences under Part III of the Liquor Act on land within the Council's control which is not the subject of a lease, sub-lease or long term licence agreement between the Council and the applicant.
